Michael Edwin Robinson Jr.

Founder, Zadeo Inc. | Inventor | Published author | Framework creator

Professional profile

Virginia-based independent inventor, multidisciplinary author and curriculum developer. Creator of Sixfold Rot, with applications spanning AI integrity, ethics, narrative construction and education. Through Zadeo Inc., he develops governed AI workflows, software inventions, research frameworks and educational technologies.

Selected credentials

Eight published paperback titles documented in the October 2026 portfolio, including *Sixfold Rot: Applied To Ai*, *The Protocol of Performance*, *The Throne*, and *Zadeo & The Copper Roses*. Developer of the Zadeo Decision & Ownership curriculum and a 15-week cross-disciplinary curriculum for The Throne. Research interests include AI governance, evidence integrity, mechanism discovery, language and vocal-performance representation.

Current research

Research Mission 001 applies Zadeo Inc. methods to a controlled integrity study of the Darwin Gödel Machine. Sixfold Rot is patent pending per the inventor; other proprietary inventions are not disclosed here.
